

NEW

TRANSIT CUSTOM

Meet the new Transit Custom.
It's the van that's so much more than a van. It's your reliable partner. One that's effortlessly adaptable. And it's full of brilliant ideas that make your working day more efficient as well as more enjoyable.

THE SIMPLE WAY TO DRIVE A NEW FORD TRANSIT CUSTOM

4 SPECIFICATIONS

5 OWNERSHIP

Vehicle shown features accessories.

Left: Transit Custom Limited L1 H1 Van in Chrome Blue metallic body colour (option), shown with 17" twin-spoke alloy wheels in Carbonised Grey (option).

Right: Transit Custom Limited L2 H1 Van in Artisan Red metallic body colour (option), shown with fixed tow bar (option and accessory).

1 EXPLORE

YOUR NEXT GREAT BUSINESS DECISION

Everything about the new Transit Custom is beautifully designed. The refined contemporary appearance makes an immediate and lasting impression on clients and colleagues. While the 50 mm reduction in overall height makes the Transit Custom look like it really means business – and it really makes doing business a pleasure.

It's also really clever. From intelligent safety systems, to connectivity, and fleet telematics, everything has been developed to be easy to use. Allowing you to concentrate on the day ahead.

Transit Custom Limited L1 H1 Van in Frozen White solid body colour (option), shown with 17" twin-spoke alloy wheels in Carbonised Grey (option).

1 EXPLORE

IT'S CLEVER. NOT COMPLICATED

The new Transit Custom has been designed to make you feel at home when away from home. Keyless Entry saves you from having to search your pockets or bag when approaching the vehicle, and is especially useful when carrying your morning coffee. While Keyless Start further simplifies the beginning of every journey.

Inside, thoughtful design elements are complemented by premium textiles to create a great atmosphere for travelling. And everything is exactly where it should be – within easy reach and easy to operate via the 13" touchscreen or Voice Control.

The latest SYNC 4 system (standard on all series) provides essential vehicle information and navigation tools, and allows you to enjoy your favourite entertainment. Plus, you can wirelessly connect your Apple or Android smartphone with ease.

*The AGR quality cachet (Aktion Gesunder Rücken = Campaign for Healthier Backs): Certified and recommended by Association Forum Healthy Back – Better Living and Federal Association of German Back Schools. More information: AGR e.V., Stader Str. 6, D - 27432 Bremervörde, Phone + 49 4761/926 358 0.

Transit Custom Limited L1 H1 Van with Barlo Pin Hex Emboss in Black Onyx (standard), shown with Ford SYNC 4 (standard).

The 13" touchscreen provides a range of connectivity tools including navigation, vehicle drive modes, and entertainment options.

Ergonomically designed front seats with AGR accreditation* are ideal for your back and help provide optimum comfort on longer journeys.

A simplified dashboard makes locating and operating many vehicle systems, such as air conditioning, effortless.

SPACE TO THRIVE

Built on an all-new platform, your Transit Custom delivers both impressive and improved proportions as well as expressive styling – all of which combine to make life a little easier.

A lower step-in height makes getting in and out more comfortable for driver and passengers. While the electric parking brake (EPB) and column-mounted auto shifter make moving across and around the front of the cabin simple and squeeze-free.

Getting in and out of a garage – at home or at site – is now even easier too. The overall height of the vehicle has been reduced by 50 mm, making it less than two metres tall.

And once you're in, it's time to enjoy the ride. The new driving position gives the Transit Custom a more car-like feel, while maintaining excellent levels of visibility.

Vehicle shown features accessories.

Transit Custom Limited L1 H1 Van in Grey Matter premium body colour (option), shown with 17" twin-spoke alloy wheels in Carbonised Grey (option).

BUILT FOR BIG CHALLENGES

To help you drive with greater control in trickier and unpredictable conditions, Transit Custom is now available with all-wheel drive. From rainy roads to loose on-site gravel tracks, as well as snow and ice, the all-wheel drive system helps keep the vehicle safely planted to the surface. Available with a choice of refined diesel engines, including an economical 136 PS automatic or a more punchy 170 PS 8-speed automatic, to suit your business needs.

New 8-speed automatic transmission

Delivers power with greater smoothness across the range, helping to optimise day-to-day economy, and to provide extra oomph when it's needed.

Fixed tow bar

Ideal for towing large items of up to 2.5 tonnes (max.)*, the optional tow bar is designed to be fully compatible with the vehicle's electrical system.

*Even when towing the gross train mass (GTM) must not be exceeded. Vehicle shown features accessories.

Transit Custom Limited L1 H1 Van AWD in Moondust Silver metallic body colour (option), shown with 17" twin-spoke alloy wheels in Carbonised Grey (option).

1 EXPLORE

SERIOUS ABOUT SECURITY

Ford knows your van is your livelihood. Which is why we've put multiple systems in place that, when enabled, alert you if the vehicle is being tampered with or is not where it should be.

Incline Alerts* detect if the vehicle has been jacked or lifted while the ignition is off.

Impact Alerts* notify you if a vehicle has been on the receiving end of a detectable impact while in depot.

Inconsistent Location Alerts* monitors for location changes between vehicle turn off and next ignition.

Security Alerts*† notify you if a door has been opened when it shouldn't have been.

A range of optional security solutions and packs are also available including a Slam Handle, and Hook Locks with and without deadlocks, as well as Armourshells and Anti-Pick Locks.

*Requires a Ford Telematics subscription. †Available with FordPass Pro and FordPass.

DIESEL POWER

From power and torque to efficiency and refinement, each engine in the Ford EcoBlue diesel range has been optimised to meet your most demanding needs and the stringent Euro 6.2 emissions standards. A range of fuel-saving technologies that include*, low rolling resistance tyres and new 8-speed automatic transmission help offer greater efficiency than ever before.

*Some of the features listed above are options, at extra cost and may not be available on all models. Please refer to the specification tables or speak to your Ford Commercial Vehicle Dealer for further information.

**WLTP figures. For more information, please see Fuel and Performance section.

Note For further fuel economy and emissions information, please refer to the specifications section.

EFFICIENT

2.0L Ford EcoBlue 110 PS diesel engine

Offering outstanding fuel efficiency (from 6.9L/100 mi combined) with excellent driveability and refinement, without loss of payload capability or performance. (Manual only)

110 PS, 81 kW, 310 Nm
From 181g/mi**

FLEXIBLE

2.0L Ford EcoBlue 136 PS diesel engine

Striking a balance of delivering the extra power and torque necessary to enhance gross train mass (GTM), without compromising emissions. (Manual and Automatic)

136 PS, 100 kW, 360 Nm
From 181g/mi**

ASSERTIVE

2.0L Ford EcoBlue 150 PS diesel engine

Ideal for when the loadspace is regularly full or towing lighter to medium loads, but still keeping economy optimised. (Manual only)

150 PS, 110 kW, 360 Nm
From 186g/mi**

POWERFUL

2.0L Ford EcoBlue 170 PS diesel engine

The most powerful engine in the range. Its hardworking character makes it ideal for moving heavy loads and towing, while delivering outstanding fuel efficiency. (Automatic only)

170 PS, 125 kW, 390 Nm
From 199g/mi**

LOAD CAPACITY AND PAYLOAD

The flexible Transit Custom Van is available in a range of configurations to meet your load carrying needs. Whether you spend most of your time driving through the city or travelling from site to site, a range of seat options, wheelbases and payload capabilities help make everything run smoothly.

Offering between 5.8 m³ (L1 H1) and up to 9 m³ (L2 H2) of space in the load area, you can comfortably carry either three Euro Pallets* in the L1 variants or up to four Euro Pallets in the L2 variants.

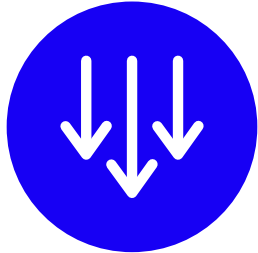

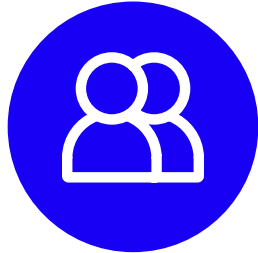

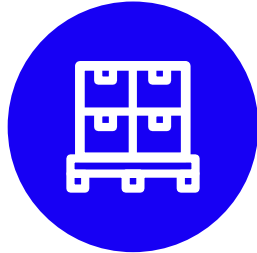

*A standard single Euro Pallet measures 1,200 mm x 800 mm x 144 mm.

L1

L2

	 MASS	 PAYLOAD	 VOLUME	 SEATS	 PALLETs
L1 H1	2,770-3,225 KG	848-1,336KG	5.8 M³	2-3	3
L2 H1	2,825-3,225 KG	802-1,316 KG	6.8 M³	2-4	4

1 EXPLORE

SELECTABLE DRIVE MODES

A choice of drive modes includes, Normal, Eco, and Slippery. The system adjusts various settings, including throttle response, helping make driving easier in certain conditions.

ELECTRIC PARKING BRAKE

Just like a premium vehicle, a simple switch in the middle of the console allows you to effortlessly apply the parking brake without having to reach. Ideal for when stopping in tighter spots and you can't risk rolling forwards or backwards. Plus, the electric parking brake frees up more space, allowing you to move around or across the front of the cabin with greater ease.

KEYLESS ENTRY

Transit Custom helps make life a little easier. Walk towards yours and the Ford KeyFree System senses the presence of your key fob, even if it's in your pocket or bag, and unlocks all doors. Ideal for when you're grabbing your morning coffee. (Standard on Limited, optional on all other series)

1 EXPLORE

KEYLESS START

When you take your seat, there's no need for an ignition key. Simply depress the clutch (or depress the brake on auto), push the Ford Power starter button and you're ready to go. (Standard)

LED HEADLIGHTS

Transit Custom looks impressive from every angle, and none more so than the front. LED headlights offer the added reassurance of automatic high-mounted headlights to provide excellent illumination in all conditions. While LED daytime running lights give a more dynamic look.

DUAL-ZONE ELECTRONIC AUTOMATIC TEMPERATURE CONTROL

Both driver and front passenger can regulate the temperature to be exactly how they like it – helping guarantee individual comfort.

1 EXPLORE

SYNC 4

New to Transit Custom, SYNC 4 intuitively connects to your world through a striking 13" landscape display. Wireless Apple CarPlay and Android Auto* give you seamless access to your music, and maps, as well as some of your favourite apps. The system can be conveniently controlled via a hand gesture or hands-free Voice Control, allowing you to more safely dictate text messages or to speak to colleagues, family and friends.

Connected Navigation† (optional subscription, and complimentary for the first 12 months**) allows you to more effectively plan your journey by providing real-time traffic updates, weather information, fuel-stops and their prices, and parking availability at your destination.

Ford Power-Up updates keep your vehicle's systems evolving by wirelessly upgrading the software – improving functionality without interrupting your day.

Note Navigation is available with selected Driver Assist packs on all vehicles with SYNC 4.

Note Full SYNC 4 smartphone integration is only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 4 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check their official websites for the latest information.

*Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.

†Following the initial 12-month Connected Navigation trial period a subscription fee is payable. Connected Navigation uses connected vehicle data (such as driving and location data) shared through the FordPass Connect. Data sharing with Ford can be managed through the in-vehicle settings, but this may impact the services available.

**From warranty start date.

Transit Custom Limited L1 H1 Van.

INTELLIGENT ADAPTIVE CRUISE CONTROL⁰¹⁾

This invaluable system helps take the stress out of heavy traffic. By using satellite navigation information combined with Traffic Sign Recognition⁰¹⁾ it can identify the prevailing speed limit. The system can then automatically adjust your vehicle's speed to keep you within the limit detected. (Option)

REAR PARKING DISTANCE SENSORS⁰¹⁾

The Transit Custom is a great looking vehicle, and we want to help you keep it looking that way. The rear parking sensors assist you when judging the distance between your vehicle and any obstacles. And when the sensors detect an object, an audible warning is activated, which gets increasingly louder the closer you get. (Standard)

TRAFFIC SIGN RECOGNITION⁰¹⁾

Whether the signs are at the side of the road or above it, permanent or temporary, Traffic Sign Recognition⁰¹⁾ can identify them. An icon of that speed or no-overtaking sign appears on the instrument cluster and changes every time you enter a new limit, keeping you fully informed on every journey. (Standard)

ELECTRONIC STABILITY CONTROL (ESC)⁰²⁾

When you deviate from your chosen line the system aims to keep you on track by automatically regulating braking and engine output. Traction Control⁰²⁾ also helps eliminate excessive wheelspin to optimise grip. (Standard)

BLIND SPOT INFORMATION SYSTEM⁰²⁾

Be warned when you begin a manoeuvre and a vehicle has entered or is entering your blind spot – the system will then proceed to guide your vehicle back into the host lane. (Option)

LANE-KEEPING SYSTEM⁰²⁾

When you approach lane markings without using the indicator a warning is signalled through the steering wheel, and if you fail to react, Lane-Keeping Aid⁰²⁾ will apply steering torque to help keep you safely within your marked lane. (Standard)

INTERSECTION ASSIST WITH PEDESTRIAN DETECTION⁰²⁾

This system utilises the camera and radar sensor technology used by Pre-Collision Assist with Automatic Emergency Braking to detect oncoming traffic when turning left. If there's a risk of a collision with an oncoming vehicle or passing pedestrian, the vehicle can alert the driver and apply the brakes. (Standard)

1 EXPLORE

FORD PRO TELEMATICS ESSENTIALS

Ford Pro Telematics Essentials[‡] is a complimentary web-based fleet management tool which utilises a wealth of powerful data, including vehicle health status, to help you optimise uptime.

Designed for fleets of any size, it allows for more effective maintenance planning. And with access to FORDLive included, you can also share data directly with your Dealer for smarter, faster repairs.

Complimentary and connected

An ideal tool for medium to large fleet operators, it allows you to monitor the day-to-day essentials without charge. Available for all vehicles with a FordPass Connect modem.

Unlock health data

From manufacturer diagnostic codes with suggested actions and recall information, to customised maintenance schedules based on oil life, engine hours, time and mileage, you can identify issues before they become problems, and keep your fleet moving.

Connect to FORDLive

When you grant permission, your Ford Authorised Repairer can see your vehicle health data, allowing the Dealer to proactively order parts, flag other upcoming maintenance, and agree with you the best schedule to maximise uptime.

[‡]Ford Data Services and Ford Telematics are available for Ford vehicles with a FordPass Connect modem or a Ford plug-in modem. Fleet/business customers only. Subscription charges and Ford Connected Service terms and conditions apply.

1 EXPLORE

FORD PRO TELEMATICS

Available for fleets of any size, this range of productivity tools, alerts and vehicle insights, allows you to monitor your vehicles' performance, keep track of where they go, how they're used, and how they're running.

Improve asset utilisation

Keep track of the vehicles in your fleet with GPS tracking and geofencing capabilities. Knowing exactly where all vehicles are at all times helps you plan more effectively, and get the most out of your team.

Maximise vehicle availability

Receive proactive notifications and vehicle health alerts, so you can plan ahead and stay ahead. Workflow tools help schedule services in advance, avoid costly, unexpected repairs, and reduce disruption to your operation.

Always stay informed

We also offer the Ford Telematics Drive app, which enables drivers to pair with a vehicle in your fleet. Drivers provide timely information about the roadworthiness of that vehicle to the fleet manager, by completing vehicle checklists, or by reporting any maintenance issues, all via the app.

Optimise your running costs

With the ability to monitor fuel/energy consumption across your vehicles, you can identify areas of waste, and the causes – enabling you to improve efficiency, which can help you save money over the life of your vehicles.

Protect your fleet

Manage your fleet and driver compliance every day. You can receive a range of notifications, including advance service reminders, or a warning if a driver isn't wearing their seat belt. This helps you act quickly to protect your operation.

Improve driver behaviour

Your drivers play a key role in your operation, which is why Ford Telematics now includes in-vehicle coaching. The system also provides valuable insights into driver behaviour; and informs you of coaching opportunities to increase efficiency, reduce waste, and improve compliance.

1 EXPLORE

FORDPASS PRO

Whether you work with one business vehicle or manage up to five, FordPass Pro gives you the tools you need to help keep them healthy, secure, and running smoothly. Simply download FordPass Pro from the App Store or get it on Google Play.

Health alerts

Receive notifications for key vehicle health information, such as oil life and tyre pressures.

Fleet health on map

Check the location and health status of all your vehicles on a single map at the start and end of the working day.

Remote Start*

Ideal for cold and frosty mornings, Remote Start allows you to fire up the engine and defrost the windscreen before your working day.

Remote lock and unlock

Check if a vehicle is secure, plus lock or unlock it remotely – including separate Zonal Unlocking for cabin and load doors.

SecuriAlert

Offers a heightened state of security beyond your vehicle's alarm system. If someone is detected accessing your vehicle, even with a stolen or duplicated key, you will be notified.

Roadside assistance

Keep your fleet up and running with roadside assistance when and where you need it (only available with an active Roadside Assistance plan).

Online service booking

Check your Dealer's availability and book your service directly through the app.

Note FordPass Pro is a free app, compatible with select smartphone platforms and is available via download. Future features may be chargeable and message and data rates may apply. FordPass Pro is available in selected markets. Please see your Ford Dealer for details.

*Automatic transmission only.

1 EXPLORE

SUPPORTING SUBSCRIPTIONS

Your new Ford Transit Custom offers a range of valuable connectivity features that will help keep your business running smoothly – some of which are complimentary for the first 12 months.

FORDPASS PRO

CONNECTED NAVIGATION*

With the latest traffic information, including Local Hazard Information, delivered from the cloud straight to your vehicle, you can plan ahead and avoid delays. While step-by-step guidance is provided audibly or through the navigation screen – which also displays the cost of refuelling on route. (Complimentary for 12 months)

FORD PRO TELEMATICS

FORD PRO TELEMATICS

If you operate more than five vehicles, you can manage them more effectively with Ford Telematics. Its advantageous functions assist you in monitoring vehicles performance, where they go, how they're used, and how they're running.

FORD PRO DATA SERVICES

Enjoy manufacturer grade vehicle data to either your own telematics application or via your chosen Telematics Service Provider. Data available includes vehicle health status and alerts, vehicle location, fuel monitoring and driving insights.

CONNECTED NAVIGATION*

With the latest traffic information, including Local Hazard Information, delivered from the cloud straight to your vehicle, you can plan ahead and avoid delays. While step-by-step guidance is provided audibly or through the navigation screen – which also displays the cost of refuelling on route. (Complimentary for 12 months)

*Connected Navigation is only available on vehicles fitted with SYNC 4.

*Option. **Option and Accessory.

Items ordered as an option will be fitted in the factory. If ordered as an accessory, items will be fitted at the Dealership. Fitment of accessories may have an impact on your vehicle's fuel consumption.

SIMPLE WOODEN LOAD FLOOR

This lightweight and robust floor is 12 mm in thickness, and offers the benefits of being moisture-repellent as well as slip-resistant. (Option and accessory)

- Helps protect the load area floor when cargo is loaded, unloaded or in transit

WOODEN LOAD FLOOR WITH INTEGRATED AIRLINE RAILS

In addition to the simple wooden load floor, this offers the possibility to secure your cargo using multiple fixation points on the floor. The three integrated airline rails can withstand a max. lashing capacity of 500 daN. (Option and accessory)

- Lightweight and robust, 12 mm in thickness, moisture-repellent and slip-resistant
- Includes cargo tie-down rings

EXPRESS DELIVERY VAN

This robust load floor with three integrated airline rails (max. lashing capacity 500 daN) provides additional fixation points (includes tie-down rings and full height trim) for common shelves and other parts. (Option)

- Secure cargo via the floor, as well as the strong side airline rails
- Floor is 12 mm in thickness, moisture-repellent and slip-resistant

CARGO NET KIT

This lightweight, horizontal cargo net system provides a simple solution for securing your loads. Easy attachment to the side-mounted tie-down points makes it ideal for courier and parcel delivery service providers. (Option and accessory)

- Max. load capacity 5 kg per net
- Size: 356 mm x 358 mm

CARGO STOWAGE RAIL KIT

Airline rails are fixed horizontally in a mid position on both sides of the cargo area, allowing you to secure items. (Option and accessory)

- Includes a blue load retention box with ratchet straps, fittings with a hook, packed in a small bag
- Cargo tie-down rings included

ILLUMINATED AND NON-ILLUMINATED AIRLINE RAIL KIT

Creates optimal working conditions by providing a clear view of your tools and cargo, day or night. (Option and accessory)

- Provides more options and anchor points for securing cargo as block bars
- 1 illuminated (LED) and 2 non-illuminated roof rails per loadspace

INTEGRATED AND FOLDABLE ROOF RACK

Transport a range of loads easily. Sturdy, lightweight, aerodynamic, folds flat when not required and compatible with Thule®* roof attachments. (Option and accessory)

- 155 kg max. capacity when three racks are folded up
- 75 kg max. capacity when two racks are folded up

FIXED AND DETACHABLE TOW BAR

Engineered specifically for your Ford and designed for full compatibility and integration with your vehicle's electrical system, the Ford range of tow bars offer a range of robust solutions for your business needs. (Option and/or accessory)

*Item covered by third party supplier's warranty, please see back cover for details.

Items ordered as an option will be fitted in the factory. If ordered as an accessory, items will be fitted at the Dealership. Fitment of accessories may have an impact on your vehicle's fuel consumption.

FOLDABLE SHELF SYSTEM

The new foldable shelf system allows you to reconfigure the loadspace in seconds, optimising storage requirements. Shelves can be folded up when not in use. The system also includes a simple wooden load floor making it ideal for delivery services. (Option)

REAR WINDOW PROTECTION GRILLE

This helps prevent any potential interior damage being caused to the window, without obscuring the driver's view out of the rear window. (Option and accessory)

REAR LADDER

Offers quick and easy access to goods stored on the roof. (Option and accessory)

- High-quality and corrosion resistant
- 125 kg max. load capacity

DEADLOCKS (TVL)

Ideal if you require additional protection for the cabin area only.

- Both driver and passenger doors benefit from a deadlock
- The driver's door also features an Anti-Pick Lock and Loom Guards

DEADLOCK PACK (TVL)

Give both the front cabin and cargo area an additional level of security with the Deadlock Pack.

- Both driver and passenger doors benefit from a deadlock
- The driver's door also features an Anti-Pick Lock and Loom Guards. Loom Guards are also provided in the rear cargo door
- Latch Shields are also fitted to the driver's side load door, rear cargo door and kerbside sliding load door

SMART FUSE BOX

The all-new design combines several features into one multi-purpose unit. Featuring a high-current fuse box, Ford Programmable Battery Guard[†], selected vehicle signals, and offering the ability to support split charging capability. The fuse box is also configurable with 8 inputs and 8 outputs and offers up to 250 Amp of power management capability.

[†]Restrictions apply.
For more information please speak to your local Ford Transit Centre.

ARMOURSHELL (TVL)

If you don't require deadlocks, Armourshells provide a visual deterrent in addition to being the most robust security option with an interlocking shell design and a supporting bolt mechanism.

- Driver's door – includes factory-fitted RepLock, and Loom Guard
- Passenger door – includes Loom Guard
- Rear cargo door, plus single/dual side load doors – includes Armourshell lock

ARMOURSHELL SECURITY PACK[†] (TVL)

In addition to the Armourshells, the Armourshell Security Pack includes deadlocks – adding another level of security for those who want it.

[†]Image shows Transit Custom model.

For more information please speak to your local Ford Transit Centre.

HOOK LOCK (TVL)

Enjoy optimum cabin and loadspace protection without deadlocks. The driver's door features a RepLock that prevents it from being compromised, while front door Loom Guards prevent lock cables from being severed, helping inhibit access to the vehicle. Locks on the cab and load area doors are independently operated. And for vehicles that have glass in the cargo doors, the locks are installed in a lower alternative position.

HOOK LOCK SECURITY PACK*† (TVL)

A RepLock on the driver's door lock prevents it from being compromised. While Loom Guards on both front doors prevent lock cables from being severed, helping inhibit access to the vehicle. Plus, the locks on the cab and load area doors are independently operated. For vehicles that have glass in the cargo doors, the locks are installed in a lower alternative position.

- Pack includes deadlocks

SLAM HANDLE PACK (TVL)

Slam locks help increase productivity by removing the need to lock the vehicle's cargo space each time the driver exits. Ideal for couriers or multiple delivery location drivers.

- Driver's door – includes factory RepLock
- Rear cargo doors – includes Latch Shield and Slam Handle
- Single/dual side load doors – includes Latch Shields and Slam Handle (auto-lock, key unlock)

REPLOCK (TVL)

An enhanced security alternative to the driver's door lock, this factory-fitted replacement prevents the driver's door from being compromised.

TRAILER TOW ELECTRICS

This option includes towing electrics (connector and wiring) without the physical tow bar – allowing the tow bar of choice to be easily fitted with minimal effort.

3 CUSTOMISE

SPECIAL VEHICLE OPTIONS

SINGLE H8 AGM BATTERY*†

Suitable for vehicles requiring engine-off power requirements higher than a standard battery – this 95 Ah H8 AGM deep cycle battery is more resistant to a cycle of heavy charge and discharge, and resists fading over time.

- Ideal for conversions requiring telematics or trackers

ENGINE RPM CONTROL*†

This allows the engine to be run at an elevated idle speed providing an electrical and mechanical power take-off to drive supplementary equipment – ideal for refrigeration and utility conversions. (Requires a third-party control box)

*Available on selected models only. †Restrictions apply.

For more information please speak to your local Ford Transit Centre.

2.0L TDCi Ford EcoBlue 170 PS (125 kW) 8-speed automatic	3.65	219-221	8.3-8.4	34.0 - 33.6

Note: [†]The illustrated axle ratio shown is the one available dependent upon model, GVM payload and engine/transmission combination.
[‡]The declared fuel/energy consumptions, CO₂ emissions and electric ranges are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty vehicles type-approved using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) will have fuel/energy consumptions and CO₂ emission information for New European Drive Cycle (NEDC) and WLTP. WLTP will fully replace the NEDC latest by end of the year 2020. The applied standard test procedures enable comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle, driving behaviour as well as other non-technical factors play a role in determining a vehicle's fuel/energy consumption, CO₂ emissions and electric ranges. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contains data for all new passenger carrying vehicle models is available at any point of sale free of charge or can be downloaded under <https://carfueldata.vehicle-certification-agency.gov.uk/>

L1 = Short wheelbase, L2 = Long wheelbase, H1 = Low Roof. All dimensions (shown in mm) are subject to manufacturing tolerances and refer to minimum specification models and do not include additional equipment. *Height dimensions show the range from minimum to maximum of a fully laden, lowest payload vehicle to unladen highest payload vehicle. These illustrations are for guidance only. **VDA method** This is the method used by the Verband der Automobilindustrie (VDA) in Germany. A VDA figure is determined by filling the loadspace with 'litre' blocks, each measuring 200x100x50 mm. The blocks are then counted, and the numerical result is converted into cubic metres. **SAE Method** This is the method used by Society of Automotive Engineers. An SAE figure is determined by the average of two height, length and width dimensions, multiplied to derive volume in cubic metres. **Maximum load volume** method simply measures the volume of a fine-grained material such as sand or rice which can be deposited into the loadspace.

GET THE MOST FROM YOUR NEW FORD

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Transit Centre can provide professional advice on important specification aspects, and help to find the right van for your budget and business needs.

The Ford Transit Custom is designed to carry cargo – and lots of it.

Choosing a new van is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining load box size are relatively simple, others, such as calculating payload are more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

GVM is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and crew (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

For simplicity, Ford Transit models are designated according to their GVM. For example, a 280 has a GVM of c. 2,800 kg; and a 300 has a GVM of c. 3,000 kg.

Kerb mass is the weight of a standard-specification Leader series vehicle, including fluids and fuel tank 90% full, but without the driver, crew or cargo.

Payload is the difference between the two.

Gross vehicle mass minus kerb mass = payload

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and crew

We calculate the weight of the driver and crew based on the industry-standard weight of 75 kg/person. Remember that the driver and crew are not included in the kerb mass figure, so when a driver or crew boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

However, specifying a single front passenger seat in lieu of the standard dual seat will reduce the vehicle's weight by approximately 12 kg, and increase its payload by the same amount. Your Transit Centre will be able to tell you what features can add or reduce your vehicle's kerb mass and by how much.

Series

All kerb masses quoted in this brochure are for standard-specification Leader series models, unless otherwise stated. Trend, Trail, Limited and Sport series models will generally weigh more than Leader series due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to carry cargo at, or close to, the vehicle's maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

Configure your van to suit your job

Ford Commercial Vehicles are available with a wide range of standard and optional features. Your Transit Centre can help you ensure that you specify the right vehicle features for your specific business needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

Note Technical information for vehicle converters can be found online via the Body and Equipment Mounting Manual @etis.ford.com go to >information >>vehicle conversions.

320 L2 H1 – automatic transmission AWD	1122-1233	3225	1992-2076	1700	1850

L1 = Short wheelbase, L2 = Long wheelbase, H1 = Low Roof. Figures apply to Low Roof vehicles unless otherwise stated. Kerb mass is affected by many factors such as bodystyles, engines and options. It is the weight of a standard-specification base series vehicle (different series will have different kerb masses), including fluids and fuel tank 90% full, but without the driver (75 kg), crew or cargo. Payload within this guide is the difference between gross vehicle mass (GVM) and kerb mass with a further 75 kg deduction for the weight of the driver. It must be noted that actual weight will always be subject to manufacturing tolerances which may result in payload variations between this guide and actual weight. For customers intending to load vehicle close to maximum payload, we suggest you also add a margin for error of 5% of kerb mass to the kerb mass figure before calculation, to reduce risk of overloading. NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use. Consult your Ford Commercial Vehicle Dealer for more information.

5 OWNERSHIP

Getting behind the wheel of your next new Ford is simple, with a variety of finance options available to suit your business needs.

BUILD YOUR VEHICLE

Build and personalise your vehicle online. Simply head to the Ford website, select your model, then choose your engine, body colour and extras. You'll be able to view the recommended price, and send your configuration to a Ford Commercial Vehicle Dealer if you wish.

[BUILD YOURS NOW](#) ➤

COMMERCIAL VEHICLE FINANCE

When it comes to financing your Ford Commercial Vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit[®]: Provides a range of finance plans for Commercial Vehicle customers interested in owning their vehicle.

Ford Lease[†]: Specialises in contract hire and leasing, and provides an alternative range of finance plans which can be tailored to suit your business. Business users only.

For more information about our finance products visit

[LEARN MORE](#) ➤

FIND A DEALER AND REQUEST A TEST DRIVE

You can search for a Ford Commercial Vehicle Dealer by location or Dealer name on the Ford website, and request a test drive online. Simply fill in your details and your chosen Dealer will contact you to arrange a convenient time.

[FIND A DEALER](#) ➤

FORDPASS PRO

Look after up to five business vehicles, with tools to help you keep them healthy, secure and running smoothly. So you can focus on the work.

FordPass Pro is designed for new Commercial Vehicles that come with FordPass Connect. Our built-in modem keeps you effortlessly connected with your vehicles, wherever you are. Giving you all the features you need to keep your business moving.

FordPass Pro is available in selected markets. Please see your Ford Dealer for details.

Download FordPass Pro from the App Store or get it on Google Play.

Save on your servicing costs

A Ford Protect Service Plan† fixes your servicing costs at today’s prices for the duration of your plan, helping you save money.

Simply select the Ford Protect Service Plan that is most appropriate to your needs, with 2, 3 and 4 year plans available. Ford Protect Service plans can be paid for upfront, or if you buy online through the Ford Online Shop, the costs can be spread into convenient and affordable monthly payments. www.shop.ford.co.uk/pages/service-plans

If you are looking for even more peace of mind, the Ford Protect Service Plan Plus includes everything already covered by the Ford Protect Service Plan, with the addition of Wear and Tear parts. All work on your vehicle will be undertaken by a Ford authorised repairer. Available through your Ford Dealer at point of registration only.

Ford Protect Service Plans must be purchased before the vehicle is 12 months old or before its first service. They are transferable to the new owner should you decide to sell your vehicle. Your Ford dealer will be happy to advise you on a plan which is tailored to your needs.

The duration of a Ford Protect Service Plan begins at the New Vehicle Warranty commencement date (usually the date of first registration). The length of your contract and your estimated mileage determines the number of services in a Ford Protect Service Plan.

LEARN MORE [➤](#)

Commercial Extended Warranty

Cover your vehicle beyond the new vehicle warranty up to 5 years with Ford Protect.

Available at participating Ford Dealers.

By extending your standard 3-year warranty, you will enjoy worry-free operation for many years to come. Ford Protect provides a range of key benefits, including:

- Extended duration and mileage
- Cover against unexpected repair costs
- Coverage on trips abroad
- Protection against inflation for the price of parts and labour for the length of your plan
- Transferable to the next owner
- Helps protect your vehicle resale value

Ford Protect terms and conditions apply.

For further information please call

03702 416 726, option 2, option 2.

*Repairs will start on the same working day (as long as you bring your vehicle in before 3pm), or at least within 24 hours of its arrival. If we need to order parts, we’ll begin work the day they’re delivered. ‘Vehicle off the road’ repairs should be completed within 24 hours.

**Your Transit Centre can arrange to collect your vehicle and deliver it back to you after service or repairs, so you can get on with running your business. By arrangement and limited to a specific mileage radius of the Dealer. Contact your local Dealer to discuss your requirements.

†Available at participating Dealers only. Roadside Assistance is activated automatically at every routine service with coverage extended valid from the date of service for 12 months. See Ford.co.uk/roadsideassistance for more information.

BOOK A TEST DRIVE TODAY

The best way to get acquainted with the capabilities and possibilities offered by the new Transit Custom range is with a test drive.

Book yours today, and your local Ford Dealer will be happy to assist you as soon as possible.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. **+** The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
